

## R.SHARMU

[Chennai, TamilNadu, India] | [1234567890] | [Sharmu\_dev@gmail.com]

### PROFESSIONAL SUMMARY

Passionate and detail-oriented Junior Frontend Developer with an excellent grasp of semantic markup, creative styling sheets, and dynamic client-side scripting. Skilled in translating static design mockups into fully functional, accessible, and user-friendly digital layouts. Strong collaborator with a firm commitment to clean code formatting and cross-browser interface compatibility.

---

### TECHNICAL SKILLS

- **Core Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+)
  - **Design & Layout Methodologies:** CSS Flexbox, Grid Layouts, Responsive Design, Media Breakpoints
  - **Libraries & Build Environments:** React.js, Tailwind CSS
  - **Version Control & Developer Utilities:** Git/GitHub, VS Code, Browser Developer Tools (Debugging)
- 

### PROJECTS

#### Open-Source Job Portal Platform

*Frontend Engineer & UI Layout Designer*

- Architected and implemented a complete responsive workspace system for an open-source recruitment engine using semantic **HTML5**, modern **CSS3**, and **JavaScript**.
- Built fluid responsive styling grids using **CSS Flexbox and Grid** to guarantee consistent display renders on desktop viewports, tablet surfaces, and smaller mobile phone screen sizes.
- Authored client-side script patterns in **Vanilla JavaScript** to handle interactive notification alerts, dynamic file verification checks, and defensive prompt verification modals on hazardous click streams (e.g., resource erasure validation).
- Collaborated closely on server-side architecture to integrate template loops with a Python Django data engine, dynamically populating vacancy cards and user profiles.

- Optimized asset pipelines, web-safe typeface stacks, and interactive form input layouts to reduce visual clutter and boost structural UX scannability metrics.

---

## EDUCATION

### [B.E. in Computer Science and Engineering (CSE)]

*[Madras Institute of Technology- Anna University], [Chennai, TamilNadu]*

*Graduation Year: 2026*
